

## Key Specifications of the MB86K23 LSI

|                        |   |
|------------------------|---|
| Package Size           | 10mm x 10mm                               |
| Bandwidth              | 3.5MHz, 5MHz, 7MHz, 10MHz, 20MHz          |
| Modulation method      | 64QAM / 16QAM / QPSK                      |
| Wireless Access Method | 512/1024/2048 FFT OFDMA                   |
| Antenna                | 2x2 STC/MIMO (Supports MatrixA & MatrixB) |
| OS Compatibility       | Windows Vista® etc.                       |
| External Interfaces    | USB, SDIO, SPI                            |
